RENO. WASHOE COUNTY. NEVADA, WEDNESDAY, AUGUST 8, 1883

NO. 111

PLAIN TRUTHS

The blood is the fountain of life. It circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system, the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Saved his Child.

By N. Eun St., Baltimore, Md.
Feb. 12, 1860.

Once—Upon the recommendation of a friend, I tried Brown's Iron Bitters as a tonic for my daughter, whom I was thoroughly convinced was suffering away with Consumption. Her physicians declared her to be in a terrible disease, and the eminent physician, I was told to believe that anything could arrest the progress of the disease, but, as you may know, I did not dare to try any medicine. However, my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. My daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were needed," and when informed that the doctor was prescribing Brown's Iron Bitters, responded "that is a good tonic, take it."

ADORAN PHILIP.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

WEDNESDAY, AUGUST 6, 1883

MINERALS IN AMERICA.

A report of the mineral resources of the United States, by the Director of the United States Geological Survey, is in press and will shortly be published. From advance sheets to the GAZETTE, we learn that for 1882 the output was: Gold, \$32,600,000; silver, \$46,800,000; total, \$79,300,000; or an increase of \$1,600,000 over the output in 1881. For the first six months of 1883 the product is estimated at \$16,250,000 gold, \$23,400,000 silver, and \$39,650,000 total; the rate of production being assumed to be the same as in 1882. Copper for 1882, 91,646,232 pounds, worth 17 cents a pound, making \$16,038,000. Of petroleum, Pennsylvania produced over 30,000,000 barrels, worth 78 cents per barrel, and California, 70,000 barrels. Over 132,000 tons of lead were unearthed, worth \$96 per ton. Iron, over 4,500,000 tons, worth \$106,000,000. Over 9,000,000 tons of iron ore were mined and nearly 600,000 tons imported. Pennsylvania mined 30,000,000 tons of anthracite coal and 60,000,000 common coal, in all worth \$146,000,000. Zinc to the amount of 33,700 tons, worth 5 cents a pound, was produced. Quicksilver, over 4,000,000 pounds, worth 37 cents a pound; nickel, 27,000 pounds, worth \$300,000. A trifling amount of tin ore was mined in 1882 and the first half of 1883, and production of metallic tin began on a small scale towards the close of the latter period.

It is estimated that the value of the building stone quarried in 1882 was \$21,000,000, and the brick and tile was \$34,000,000. There were 31,000,000 barrels of lime made in 1882, having a total spot value of \$21,700,000 at the kilns, and artificial Portland cement 85,000 barrels, worth spot \$191,250. The spot value of the precious stones found in 1882, before cutting, was between \$10,000 and \$15,000; after cutting, between \$50,000 and \$60,000. The value of the grindstones made from domestic rock in 1882 is estimated by leading dealers at \$700,000. The amount of salt made in 1882 was 6,412,373 barrels (of 250 pounds each)—1,765,464,440 pounds, having a spot value of \$4,320,140. During the first six months of 1883 the production is estimated at 8,206,186 barrels (—897,832,080 pounds), worth \$2,170,080, the rate of production being assumed to be the same as in 1882. The production of borax in 1882 was 4,328,291 pounds, having a spot value at the works of \$338,908. For the first half of 1883 the output is estimated at 2,800,000 pounds, worth spot, \$224,000. Of sulphur complete statistics were not obtained. The production in the census year was stated at 1,200,000 pounds, worth \$21,000. The quantity of merchantable mica mined in 1882 is estimated by leading dealers at 75,000 pounds, worth \$250,000. The production is rapidly increasing. The grand total is about \$454,000,000.

The Expositor thinks the farmers of Fresno should use less water and more manure in cultivation. How is it in Washoe?

TELEGRAPHIC BREVITIES.

—There is no news of the steamship Ludwig from Bremen which is three weeks overdue.

—The Texas fever has broken out at Dodge City, Kansas, and the cattle are dying off in great numbers; one man was arrested for driving in cattle down with the fever and will be tried to-day.

—The family of the Jew, Scharf, who was a defendant in the recent trial in Hungary for the murder of a Christian girl, was mobbed yesterday.

—There is a report in London that the Zulu chief, Cetewayo, is still alive and that he demands an investigation as to his treatment by a British official in Africa.

—In the State election held in Kentucky Monday the vote was comparatively light. Proctor Knott, the Democratic candidate for Governor, is supposed to have 45,000 majority. Henry Clay, a grandson of the great Kentucky wing statesman, was defeated for the Legislature.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Wires Cut.

NEW YORK, August 5.
Last night another onslaught was made on the wires of the Western Union Telegraph Company, the consequences of which were more disastrous than that of the preceding night. Twenty wires of one route were cut. These wires were to Philadelphia and other points in the Southern Division. Twenty of the Mutual Union were cut between Kingsbridge and Scarsdale. At Tarrytown the wires are down, and 18 wires in the Eastern Division. The cross arms were sawed off in the latter instances and the wires cut. A large force of men was sent out to repair the damages, and the lines are being fixed as rapidly as possible. The cutting of the wires interfered with others, across which they fell, and business is greatly delayed.

NEW YORK, Aug. 5.
The whole number of wires cut are 89, but nearly 200 are rendered useless in consequence. A telegram from Fort Washington said a gang of men had interfered with the line men who were repairing the lines there, and police protection had been asked in the case of the interference reported. No clue is yet discovered of the author of the mischief, although the greatest vigilance is being used. The companies employed detectives to ferret out the cause of the troubles. The companies are considerably put out by this new method of war.

Suicide and Cremation.

JOLIET, Ills., August 5.
Geo. Kellogg, a convict in the State Penitentiary, at work at a wire-drawing machine this afternoon, threw a coil of wire around his neck and was drawn against the machine. The wire was imbedded in his neck. Just before committing the deed he went to the boss and said, "I am the man who committed a double murder at Alton."

CEDAR RAPIDS, Aug. 5.
An old mill, used for storing, was burned early this morning and three unknown tramps, sleeping there, were burned to death. Only one body has been recovered.

The Iron and Steel Workers.

PHILADELPHIA, August 5.
The Iron and Steel Workers' Convention resumed its deliberations this morning and the entire session was occupied with a number of unimportant resolutions. At the afternoon session, President Jarrett will deliver his annual address, which covers the most of the topics that are expected to come up for action during the Convention. Jarrett says his reason for supporting a re-election is not owing to ill-health, but strictly on account of private interests.

Sullivan at Home.

BOSTON, August 5.
Fully 15,000 people attended the opening of John L. Sullivan's saloon, Hinton street in the vicinity of the bar-room, was packed with people; the rough element predominated. The services of the entire reserve of police with half a dozen mounted officers, were necessary to preserve order and keep the street clear for vehicles. The crowd in the main was good natured.

Knights Templar.

CINCINNATI, August 5.
The Atlantic Club, composed of Knights Templar from Baltimore and Washington on their way to San Francisco, arrived this morning by a special train on the Cincinnati, Washington & Baltimore Railroad, and are to-day on their way to Haussler Commandery of this city. They will resume their journey to-morrow.

Jerry Black Reviewed.

PHILADELPHIA, August 7.
The Times prints to-day a letter from Jefferson Davis to Judge Davis concerning the reputed exposure of secession secrets, in which the ex-Confederate President reviews in rather pungent sentences, the assertions and record of Judge Blunt, as President Buchanan's chief Cabinet officer.

An Incipient Silver Mine.

KANSAS, August 5.
Yesterday, while parties engaged in digging a well on Governor Dale's farm, five miles northwest of the city, at the depth of 20 feet struck a large vein of silver ore specimens, which, when assayed, were found to be very rich. Several other shafts are being sunk.

Respectfully Declined.

ST. PAUL, August 7.
W. W. Monroe, nominated for Governor by the late Democratic State Convention, declines to accept the nomination, and his successor will be chosen by the State Central Committee, which is not yet appointed.

The American Nine Team.

NEW YORK, August 5.
Earl Mayo and Bull, Cass, Dickin-son, Dolan, Pollard, Scott and Joiner, of the American nine team, were passengers on the steamer Abyssinia, which has arrived from Liverpool.

WESTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

AN AUSTRALIAN'S OPINION.

SAN FRANCISCO, August 5.
Sir Henry Parkes of the Government of New South Wales, who arrived in this city yesterday, said to a reporter that when Australia is as old as the United States, it will be far ahead of the latter in civilization. Our progress, he added, has been far more rapid than yours, in proportion to our size. Respecting a reported secession of Australia from Great Britain, he said, there was absolutely no such idea in existence. Why should we, he asked, we are as free as you are, and do as we please. If such a thing as Canada's secession from the mother country ever takes place, it would have but little or no influence on Australia.

Stealing Children.

SAN FRANCISCO, August 5.
The abduction of young children in this city is on the increase. Another attempt was made yesterday by a Chinaman to steal a baby 16 months old out of its baby carriage, where it had been left for a few moments by its mother.

They Cut Down Expenses.

TUCSON, A. T., August 5.
The City Council to-day reduced the salaries of the city officials \$4,000 a year. They cut down the police force, and refused to pay the expenses of the Crook banquet.

Paddle Their Own Canoe.

CLEVELAND, August 5.
P. W. Arthur, Chief of the Brotherhood of Engineers says: "Our Brotherhood has no connection with any other labor movement. We have dedicated our own canoe for 20 years, and I hope we shall always continue to do so. The statement that we are ready to strike was made without authority and has no foundation; in fact, we have no grievances, and therefore no notion of quitting our posts. If railroad operators should go out it would make no difference to us. We are satisfied with our own condition, and the strikes of other organizations do not affect us. Great pressure has been brought to bear to get us to connect ourselves with other labor unions, but we have always refused to have anything to do with them, and there lies the secret of our success."

Chelms-Cetewayo.

LONDON, August 5.
Thirteen deaths from cholera occurred at Alexandria yesterday. The British agent at Pieter Maritz believes Cetewayo still alive, and that the report of his death was put in circulation for the purpose of continuing the agitation in Zululand.

TELEGRAPHIC BREVITIES.

The number of deaths from cholera in Egypt Monday were 58.

The famous bull-fighter, Mijas of the city of Mexico, was killed on Sunday by being tossed by a bull.

Richard Wellock, who arrived in New York and was stricken with yellow fever, has been sent to quarantine.

A large majority of the Gentiles of Utah did not vote on Monday. The Mormons had everything their own way.

A serious cave in a coal mine at Wilkesbarre, Pennsylvania, occurred yesterday. A serious loss of life is feared.

Gladstone says a stable Government must be established in Egypt before the final withdrawal of the British troops.

S. G. W. Benjamin, the first representative from the United States to Paris was royally received and entertained by the Shah.

At Camden, South Carolina, last Friday night, about 60 persons were poisoned from eating ice cream. One has died, and 12 more are in a critical condition.

The certificate of incorporation of the New England Telegraph Company is filed in New York. The lines run from New York City through various cities and towns to Bangor, Maine.

The Alaskan, the new side-wheel steamboat built for the Oregon Steamship Co. for Puget Sound was launched at Rothesay yesterday. The vessel is 260 feet long, 30 feet beam and 14 feet hold.

SOTTINGS.

Delicious cream sods at Chase & Thyes.

Two car-loads of fat cattle passed west to-day.

Geo. Ulyatt has found a horse. See 50-cent column.

A large lot of bird cages just arrived at Osburn & Shoemaker's.

Go to John Belz and get a shampoo and shave. Clean up for the circus.

Toilet soap at Nasby's. Thermometer at 7, 9, 11, 1, 3—68, 78, 82, 84, 86.

There was a stand-off on emigrants this morning, four cars going each way.

The May Lundy mine, in Mono county, Cal., is reported to have been sold for \$75,000.

Attention is called to the advertisement in the 50-cent column of pasturage by Mrs. Blasdell.

Gray's shoulder braces for ladies just received direct from Boston at Osburn & Shoemaker's drug store.

Prizes due successful competitors at the Caledonia picnic will be distributed at National Guard Hall, Virginia City, next Friday.

The Central Pacific yard at this place was cleared yesterday of all loaded freight cars, which had accumulated by reason of the burned bridge.

Callender's minstrels arrived from Carson to-day by the noon train, and this afternoon made a fine display on the street. Their music was faultless.

Those ladies who have never visited the milliner and dressmaking store of Mesdames Winzell and Merrill, on Virginia street, should lose no time in examining their stock and prices. All goods and work guaranteed.

Painter & Bakes, dealers in groceries, fruit and vegetables on Virginia street, are receiving and deserving a full share of patronage. No willed or decayed goods are kept by them, and everything sold is promptly delivered.

Fredricksburg or Sacramento beer in any quantity can be had at the saloon of J. J. Becker, on Commercial Row. A lunch, equal to an ordinary meal, is set out every day about 10 o'clock—the cheapest boarding place in Reno.

I. Barnett, near the corner of Virginia street and Commercial Row, for the next 30 days proposes to wage an unrelenting war upon the prices of dry goods in Reno. The balance of his Summer stock is for sale at your own price.

If you will call at the Granite saloon, on Commercial Row, near Gallatin & Folson's corner, you can be convinced that the beer being brewed by George Becker, at the Pacific Brewery, is second to none ever sold in this town.

The firm of Chelovitch & Co., the wholesale and retail dealers in all kinds of liquors, is the place to obtain anything in that line. A glass of their bottled St. Louis beer is equal to a 50-cent meal. Call in and ask the time of day; they might treat.

It is becoming universally understood that the dry goods firm of Levy & Bro., on Virginia street, keep nothing but the best of everything in their line. There is no expense attached to an examination of the quality and prices of their stock.

The hot weather does not seem to make any difference with the sales of Knowles & Bainbridge. People are obliged to cook in Summer as well as Winter, and they are fast learning that it is much more comfortable cooking over a range which uses less than one-half the fuel of an ordinary stove.

The present satisfactory patronage being enjoyed by Perkins & White at the Palace Hotel is the best possible evidence that the travelling public know where they are well used. Every man connected with this popular house is a thorough gentleman and understands his business.

The close proximity of the grocery store of A. Lindley & Co. to the GAZETTE office affords an opportunity to see something of the immense trade being done by that firm. It is safe to say that no firm in the State is handling one-half the amount of goods being sold by these enterprising and fair dealing benefactors.

Important to Travellers.
Ed. Davis, a brother of Billy Davis, the farrier, has rented the City Hotel, on North Virginia street, and having just finished refitting and furnishing the house, will throw it open to the public to-night. Mr. Davis will keep a first-class place, and travelers will find a good home at the City Hotel. Read ad.

Callender's Minstrels.
The celebrated Callender minstrel troupe will play in the Nevada Theater, in Reno, this evening. The universal testimony of the press is that the Callenders are superior to any troupe of the kind which has ever visited this State. The singing of the Hyers sisters alone is worth the price of admission.

Sentenced.
Joseph Pergue, convicted of the crime of involuntary manslaughter, was sentenced to two years imprisonment in the State Prison.

WHAT WE THINK.

A Stalwart Democrat's Opinion of Politics.

A GAZETTE reporter called on General John R. Kittrell, the veteran Democratic politician, this morning, and found him all urbanity and full of ideas as usual. He readily accepted the idea of an interview, and the ready words began to fall twice as fast as they could be put down. He said he was for Tilden against all comers in 1884 and believed that he could again be elected President of the United States as easily as he was before, and that it is an act of retributive justice which the Democratic party owes to that great and good man. He is strong in the opinion that Hendricks ought to have second place on the ticket, and with this ticket success would be assured. He thinks the Democratic party's true position is a tariff for revenue only. They should take a firm stand in that and never compromise. No dallying or making terms with the enemy. On the railroad question the General is equally positive in his opinions that the companies only represent the aggregation of individual capital. That while they should be, as common carriers, held in check and made to subserve the public interests, every right which is guaranteed to the private individual, should be secure to them. Whatever the law gives to a corporation should be faithfully accorded to it. That a corporation's property, when it comes to a question of taxation, should be taxed at its full value, just as an individual's property is taxed. That railroads are essential to the development of the resources of all new countries, and their business should by all legitimate means be encouraged, and no legislation countenanced which would weaken them in their operations or interfere with their construction. On the silver question he is fully committed to the doctrine of free coinage, and believes that the miner who digs from the earth any quantity of ore, be it more or less, should after reduction have the unrestricted right to take his bullion to any Mint of the United States and have it coined into dollars, just on the same principle that the wheat grower takes his grain to the mill, paying to the Government no more or less than the actual expense of coining. On the subject of

THE FLAG POLE.
He unreservedly gives it as his opinion that whenever a candidate goes before the people soliciting their suffrages, and to them makes promises, whether those promises be faithfully to discharge his duties in case of election, or to donate a flag pole from which to flaunt the glorious ensign of our nation, that he should to the letter comply with those promises and shirk nothing.

On the Senatorial question the General says he is in favor first of a Democrat to succeed the Hon. John P. Jones, deeming it to be of the highest importance to the true interests of this nation that there should be a working majority of Democrats in both houses of the National Legislature. He expresses no particular choice between Democrats who may aspire to that station. Either Cassidy, Ellis, Deal, Brumsey, Curry, Schooling, Garrison or Adams would be preferred to John P. Jones or any other Republican who might be named for Senator. For Congress (it being a time-honored principle of the Democratic party to oppose a third term) he concludes that the Hon. George W. Cassidy ought not to expect his party to ignore or forsake the beaten path of precedent in this respect; therefore his name should not be presented for the Congressional nomination to the convention of 1884, but that he should stand aside and give to other aspiring Democrats the opportunity to contend for that prize. If, however, his ambition is not already satisfied with Congressional honors, let him strive to succeed John P. Jones in the Senate. The reporter called the General's attention to the fact that his name had been mentioned by many as the proper man to receive the Congressional nomination. On that subject he positively and unequivocally states that he is not, nor never has been a candidate for Congress, but he regards the exalted station of Representative in Congress, like that of the Presidency, as one neither to be sought nor declined.

Knights of Pythias Election.

The many friends of John C. Smyles will be glad to know that the *Reveille* says: This morning

John C. Smyles who has been confined in the county jail for several days charged with being insane was examined before Judge McKenney this morning, but all evidences of insanity had disappeared and he discussed several matters and answered numerous questions as rationally as anyone could. It was thought best to keep him for a few days and if no further evidence of insanity appears, to liberate him. Those in charge seem to think it a case of temporary insanity only.

Another Man Lost.
Porter Holmes of Bodie, California, wants to learn the whereabouts of W. H. Johnson, late of Bodie. Show up, W. H., the probabilities are there is some coin in Bodie for you.

Smiles Better.

PERSONALS.

General R. M. Clarke of Carson is in town.

Theodore Winters of Washoe Valley, was a passenger for Calliope to-day.

Judge B. C. Whitman was a passenger for San Francisco on this morning's express.

Quite a number of distinguished-looking Japanese were on the east-bound train to-day.

Mrs. Knight, sister of C. T. Bender of Reno, came in from the south this morning.

Miss Jennie Lewis returned from Bozeman last evening, where she has been visiting friends.

Judge D. C. McKinney of Austin was on the west-bound train to-day, going to San Jose, Cal.

L. S. Greenlaw, the business man of W. D. Torreyson in Carson, was in town last evening.

Walter Horb and family, formerly of Dayton, Lyon county, were on the east bound express to-day.

A. C. Bragg of this office left for the hills in the vicinity of Lake Tahoe to-day, to be gone a few days.

John S. Kaneen, the newly appointed County Commissioner of Storey county, was in town this morning.

Congressman Calkins and wife, of Laport, Indiana, came down from Lake Tahoe this morning and went east.

A. C. Harris, the law-partner of Congressman Calkins of Indiana, accompanied by his wife, passed east to-day.

The mother of Joseph Dillman of the First National Bank in this place came down on the V. & T. this morning.

J. M. Rhodes of Woodland, Cal., one of the pioneer bankers and expressmen of the Pacific Coast, who has been visiting relatives in Reno and Carson for the past week, left for home this morning accompanied by his grand-children, the two sons of S. C. Wright of Carson.

Governor F. A. Tritle of Arizona and family returned from the Denver Exposition on this morning's express. The Governor informed a GAZETTE reporter that the washout of the Denver & Rio Grande delayed him so long that he could not spare the time to visit Virginia City, as he had proposed.

Early Days.

R. R. Parkinson, in his editorial correspondence to the Carson Tribune, gives some very interesting reminiscences of early times in San Francisco. Among other localities he refers to the corner of Market and New Montgomery streets and the corner of Bush and Sansome as follows: Where the grand Palace hotel now stands, the tents and shanties of the dwellers on the sand knolls of Happy Valley were to be seen, and on Bush street, corner of Sansome, in the Summer of 1851, the steam-paddy commenced the work of tearing down the immense sand hills that towered as high as the upper story of the Metropolitan Hotel building, and the sand was used to fill up the city front.
